Dear Hong Kong DiD supporters,

Workshop Experience Sharing for World Economic Forum

In 2009 more than 60 Dialogue in the Dark workshops were conducted in Hong Kong and over 1.000 participants joined the sessions. That's a huge success for DiD HK and an excellent base for the upcoming permanent exhibition. In addition it is an excellent base to understand better the impact of Dialogue Trainings and I would like to ask you for some help to spread out your experiences in the framework of the World Economic Forum. I am invited to the Annual Meeting in Davos to speak about "The Nature of Intelligence" and how organizations can use culture and social context to improve results. Through our research we have some understanding about the impact for teams and leaders, but I would like to deepen this matter and would love to add some testimonials to my lecture. May I ask you to write me some lines about:

1. what was the strongest experience for you in the dark?
2. how did you cope with the darkness?
3. what transfers do you see from the artificial dark to real life experience?
4. how your organization could profit from us?

I would be pleased, if you can donate some of your valuable time to answer this question. Your contribution will be crucial and I am sure the participants of the World Economic Forum will learn a lot through your experiences. Please send your feedback to info@dialogue-in-the-dark.hk with subject "WEF"

Thanks a lot for your attention.

Sincerely yours

Dr. Andreas Heinecke
